# Patient Education

OneSource Solutions™

Empower your patients to take control of their health with DynaTouch's award-winning self-service patient education solutions. DynaTouch has the experience needed to help you provide patients and visitors with engaging and relevant health information at the point-of-service, while still maintaining a secure, controlled, 24/7 public-access system.

We will help you select the right hardware platform for the unique needs of your target audience, and then work with you to select and/or tailor the perfect user-friendly interface to match those needs. Our OneSource Solutions™ package will include all of the hardware, software, content, services and support needed for a fully-integrated, ready-to-run, turnkey system. Or, if you already have hardware or a preferred source, and/or want to create your own content, just let us know!
