TIPS MHV Express™

Connecting Vets at the Point-of-Service

Substantially increase awareness and usage of My HealtheVet!

TIPS MHV Express™ from DynaTouch makes it easy! Using uniquely integrated touchscreen technology, and a veteran-friendly graphical user interface, our point-of-service solution increases awareness, new member enrollment, and initiation of secure messaging accounts -- even for Vets with little to no Internet experience. Our OneSource Solution™ package includes everything you need - hardware, software, content, services and support – available as a fully-integrated, turnkey system. If you already have your own hardware or a preferred source, just let us know and we'll provide the rest! TIPS MHV Express is designed for use on any Windows-based kiosk, tablet or workstation, or any Android device.

Fast, easy, secure access to:

- My HealtheVet Online Registration
- How/Why/Where to Upgrade In-Person
- Secure Messaging, Pharmacy Refills, Appointments, Lab Results and More!

It's as Easy as 1-2-3!

step 1 ★ REGISTER ONLINE to set up an account
It's so easy and just takes a few minutes. You can register online from this kiosk or from any computer. Once you have an account, you can view or renew VA prescriptions online.
LEARN MORE — About My HealtheVet

step 2 ★ UPGRADE IN-PERSON to add more features
Upgrading your account by "In-Person Authentication" is easy, too. Once you've upgraded to a Premium Account, you'll have access to all the My HealtheVet features, including Appointments, Secure Messaging, VA Notes, and much more.
LEARN MORE — About In-Person Authentication

step 3 ★ SET UP SECURE MESSAGING preferences
Once you are registered with a Premium Account, you can set your Secure Messaging preferences and begin sending messages to your health care team when you have routine questions.

TIPS Cloud™
Online Kiosk Management Portal

TIPS Cloud™ is DynaTouch's web-based Customer Service Center, a key element of our total solution. It is a secure web portal that serves as the single point of entry to help system administrators manage their devices.

Each TIPS device comes with a one-year subscription to TIPS Cloud. Multi-level password-protected accounts can be provided to Client-designated personnel, allowing them to:

- View and print usage reports and graphs
- Subscribe to automatic email reports
- View system uptime reports
- Receive alerts for unauthorized websites
- Maintain allowable URL list
- Upload and manage screen savers
- Submit a content change request
- Track and manage hardware inventory
- Submit and track a problem notice

"I love pulling reports and graphs showing me which systems are being used the most. This lets me know if I need to relocate the systems for higher use and I really like that DynaTouch informs me if any of the units go off-line using their monitoring programs."
-DynaTouch Customer, Pennsylvania

"DynaTouch reporting software helps us to optimize access to online tools and services."
-DynaTouch Customer, Ohio

Uptime Reports

View system check-in status and daily operational uptime

Usage Reports

View and print colorful usage data charts and graphs for management review

Content Editors

Access tools to maintain and edit system content

Email Reports

Select which reports you want emailed, along with the desired frequency
